

It's easy to let life get the best of us. And it's okay to slow down for a second. Relax, take some time to recharge. Just remember, in times of weariness, don't get discouraged, don't give up, don't stop! Once your battery is full **KEEP GOING!**

Because "You're off to great places, today is your day. Your mountain is waiting so get on your way."
--Dr.Suess

Climb high and accomplish great things friends!
